

OPIOID CRISIS COMMUNITY FORUM

November 15, 2017

from

5:00 PM - 8:00 PM

According to the National Institute on Drug Abuse (NIH)¹, "Every day, more than 90 Americans die after overdosing on opioids. The misuse of and addiction to opioids - is a serious national crisis that affects public health as well as social and economic welfare." This crisis hits far too close to home as Mason County has the second highest opioid use per capita in Washington State.

Join local leaders and subject matter experts as we examine this epidemic at both a national & local level. Breakout sessions will explore topics on treatment, prevention, overdose and community challenges.
