

## **NMRFA Seeks Committee Volunteers**

On August 6th, 2024 the North Mason Regional Fire Authority will submit a proposal to voters within the Fire Authority to restore its fire levy from a rate of \$0.81 to \$1.11 per \$1,000 of assessed property value. The proceeds from the fire levy restoration would be used to hire two additional firefighters, help retain current firefighters and paramedics, and assist the Fire Authority to meet the challenge of rising operating expenses.

As required by state law the Fire Authority must work to create two separate committees for the measure. Each committee would consist of no more than three individuals per committee and would meet no more than three times. One committee would form an argument 'for' the ballot measure and the other committee would prepare an argument 'against' the ballot measure. These arguments, prepared by the committees, would be used in the Mason County Voter Guide which is distributed before the August 6th vote.

If you are interested in serving on either the "for" or "against" committee please submit a brief letter of interest including name and contact information by email to

[bbakken@northmasonrfa.com](mailto:bbakken@northmasonrfa.com) or by mail at PO Box 277 Belfair, WA 98528.

A letter can also be dropped off at the Fire Station at 490 NE Old Belfair Highway.
